

The First Piadineria of Desenzano since 1998

Morgan[®]

Inventors of the first Italian fried chicken wrap

What is a **piadina**?

It's the most popular street food of the northern Italy after the pizza, our mix of white flour, water, milk and lard make our pastry something unique in the world!

It's not cooked like a pizza in a hoven so it can be shaped all by hand over a special cooking plate to be topped directly in the cooking with veggies,

cured meats like the Parma® ham and cheeses like mozzarella or parmesan. This process can help the melting of the cheeses but **not the cooking of the cured meats**, so they taste like they have **just been cut in thin slices!**

Usually is folded in the middle to be able to contain more toppings, so it's not that sadly stuffed like many pizzas you can find around - and this is what made it so successful!

Sometimes is also rolled like a wrap, here at Morgan we are probably the only piadineria existing who's making rolled piadinas with fried chicken, hamburgers and ham-eggs-n-bacon!

In the next pages you will find a selection of our recipes, specifically picked up for who's not particularly familiar with the big family of italians cured meats.

PS. We do stay open every day from 11 in the morning until quite late at night (we almost never close before 2 am at night and in the weekend we close between 4 am and 6 am). Give us a try!
